MAHARAJA ELECTRIC SPA TABLE

Maharaja Electric Spa Table is multifunctional spa massage table with 4 Motors for electric height, backrest and leg rest adjustment. Crafted in solid wood frame structure, natural wood veneers and tenon & mortise joinery.

It is one of our premium spa massage table that comes with lot of complimentary accessories which include detachable armrests which are easy to remove & put back during treatments, head pillow for beauty treatments & face cradle for massage treatments.

There is plenty of storage space underneath and the access to storage can be reached out from both sides of the table. Sliding shutters help in space utilization as you don't need any opening space. Rounded corner massage top design for ease of mobility during treatment and multilayer foam cushioning for desired comfort and soft to touch fire retardant grade leatherette. We use Italian PU or Aqua Base Coatings and offer a lot of wood stain options to choose from.

L 182 x W 73 x H 71-88 cm

MUDRA ELECTRIC SPA TABLE

Mudra Electric Spa Table is multifunctional spa massage table having 4 Motors for electric height, backrest and leg rest adjustment. Crafted in solid wood frame structure and matching natural wood veneer, tenon & mortise joinery for strength and stability.

Modern in design, this massage treatment table comes with multiple storage drawers on both sides of the table, dedicated storage space to keep a hot towel cabinet, pneumatically adjusted stainless steel armrests

for guest to easily rest his/her arms during massage treatment.

There is a face hole cutting and face hole plug inside the mattress. Rounded corner massage top for ease of therapist's mobility during treatment, multilayer foam cushioning for desired comfort and soft to touch fire retardant grade leatherette has been used in this professional spa massage treatment table. We use Italian PU or Aqua Base Coatings and offer a lot of wood stain options to choose from.

L 193 x W 78 X H 68.5 cm (Adjustable)

MANAK ELECTRIC SPA BED

Manak Electric Spa Bed has simple straight-line geometry that makes it look very neat & elegant spa massage table. This professional electric spa treatment table comes fitted with 4 Motors for electric height, backrest and leg rest adjustments.

The backrest and leg rest raise mechanism are strongly crafted with mild steel components and frame structure. There is a foot pedestal for open storage space underneath the table. Specially crafted design allows the

therapist to put knees underneath the table and work very close to the face of the client during facial massage or facial treatments. There is a face hole cutting and face hole plug inside the mattress.

We used molded polyurethane mattress for cushioning, soft to touch fire retardant grade leatherette, Italian PU or Aqua Base Coatings. Esthetica offers a wide range of natural wood veneer selection for this massage table.

MUDIT ELECTRIC SPA TABLE

Mudit Electric Spa Table is fully electric, motorized spa massage table with 4 Motors for electric height, backrest and leg rest adjustment.

The unique selling point of this professional massage table is its low height as compared to other electric massage tables. We have used solid wood frame structure along with matching natural wood veneer, tenon & mortise joinery supported by metal frame structure. Modern in design, this massage treatment table comes with storage drawers at the bottom which can be accessed from both

sides of the table. There is a face hole cutting and face hole plug inside the mattress. Rounded corner massage top for ease of therapist's mobility during treatment, multilayer foam cushioning for desired comfort and soft to touch fire retardant grade leatherette has been used in this massage treatment table.

We use Italian PU or Aqua Base Coatings as per client's choice. Esthetica offers a wide range of natural wood veneer selection for this massage table.

L 208 x W 78 x H 66 cm (Adjustable)

RAMAN ELECTRIC SPA TABLE

Raman Electric Spa Table has electrically controlled synchronous backrest and leg rest adjustment. The height in this massage table is fixed and cannot be adjusted.

It is crafted in solid wood frame structure and matching natural wood veneer. Raman comes fitted with pneumatically adjusted stainless steel armrests for guest to easily rest his/her arms during massage treatment. There is plenty of storage space underneath and the access to storage can be reached out from both sides of

the table. Sliding shutters help in space utilization as you don't need any opening space.

There is a face hole cutting and face hole plug inside the mattress. Rounded corner massage top for ease of therapist's mobility during treatment, multilayer foam cushioning for desired comfort and soft to touch fire retardant grade leatherette has been used in this professional spa massage treatment table. We use Italian PU or Aqua Base Coatings and offer a lot of wood stain options to choose from.

UV-C DISINFECTION SYSTEMS

Fight germs with the power of
UV-C Germicidal Lamps

UV-C DISINFECTION TOWER

With the recent global pandemic of COVID-19 still around the corner, disinfecting your spa & salon with UV-C light reduces the risk of virus & bacteria transmission.

UV-C Light is a proven disinfectant against harmful and illness causing germs. It is lethal to bacteria & virus because of its power to breakdown the DNA Code and RNA of these pathogens and triggering mutations which prevent them from reproducing.

Esthetica's UV-C Disinfection Towers are fast, cost effective and easy to use, when you know the protocols of their usage. You can use them as your multipronged disinfection strategy to sanitize your spa, along with your conventional cleaning tools & method. The entire disinfection process leaves no residue so there is no need to remove or neutralize any harmful agent.

The area to be disinfected should be completely screened off as the ultraviolet rays emitted from UV-C light are harmful to skin & eyes. There should be no plants, humans or pet animals when the disinfecting is in process.

A woman with long brown hair is lying on her back on a dark, contoured massage table. A therapist in a blue uniform is performing an oil massage on her back. The therapist's hands are visible, applying pressure to the shoulder blades. The background is a wooden wall. The overall atmosphere is relaxing and professional.

ELECTRIC RELAXATION CHAIR

Electric Relaxation Chair is designed to position your body to make you feel weightless, stressfree, and energized. This works by elevating your feet to be at the same level as your heart.

When you achieve this position, you minimize the toll that gravity takes on your body every day. Electric relaxation chairs help you off set these effects and actually feel what it' like to be stress-free.

In addition, all positions are securely held with a remote control as you can electrically control all the movement. This way, you can feel fully supported when you find your favourite position.

CARMEL ELECTRIC HAIR WASH STATION

Carmel Hair Wash Station is premium flagship hair wash station from Esthetica for spas & salons.

Ergonomically designed motorized seat adjustment that converts the hair wash station seat into a flatbed position which considerably reduces the pressure on guest's neck while getting the hair wash done. Since it is a flatbed position, the problem of water trickling down the guest's neck during hair wash is reduced. The complete body of this hair wash

station is crafted in stainless steel and comes with complete sanitary fittings – handheld shower, mixing valve and drain fittings.

The ceramic basin is adjustable and can be tilted to certain angles for client's comfort. The basin color can be white or black. The electric switch is conveniently located at the rear for ease of operation and the single press activated mechanism. Various leatherette color options are available for this product.

L 54 x W 43 x H 89 cm

ARIA ELECTRIC HAIR WASH STATION

Aria Hair Wash Station is ergonomically designed and comes with motorized leg rest adjustment and offers comfortable seating posture along with lumbar support.

The complete body of this hair wash station is crafted from durable alucobond material and comes with complete sanitary fittings – handheld shower, mixing valve and drain

fittings. The ceramic basin is adjustable and can be tilted to certain angles for client's comfort.

The basin color can be white or black. The electric switch is conveniently located for ease of operation and the leg rest position can be adjusted at various positions. Various leatherette color options are available for this product.
